**Subject of Disclosure:**

Change in Foreign Ownership Restriction from no limit to 40%

**Background/Description of the Disclosure:**

SPC Power Corporation (the "Corporation"), is engaged in the business of power generation. Pursuant to RA no. 9136 (EPIRA Law), power generation is not a public utility operation. As such, no foreign ownership limitation was required.

Upon engaging in the business of renewable energy, the Corporation has to comply with the Implementing Rules and Regulations of RA 9513 (Renewable Energy Act of 2008), which subjects the exploration, development and utilization of renewable resources to the 40% foreign equity limitation.

Recently however, (1) the Department of Justice Opinion dated September 29, 2022 opined that exploration, development and utilization of solar, wind, hydro ocean and tidal energy should not be subject to the 40% foreign equity limitation under Section 2 of Article XII of the Constitution and (2) the Department of Energy amended the Implementing Rules and Regulations of the Renewable Energy Act of 2008 to be consistent with the DOJ opinion.

This notwithstanding, the Corporation maintains the change of foreign ownership to 40% equity limit, on the basis of the laws on landownership and acquisition in the Philippines that limit the same to Filipino corporations only.
